

# Stringing Needle

**Step 1**

**Step 2**

**DBM®LLC. Cord** is the finest possible with a 130lbs. Min break strength. ASTM 2256-80 Testing Method. **No Needle Required. Never fix the same shade twice.**

**This cord will require a needle and will stretch over time. It typically lasts several days.**

ADJUSTING CORD TENSION  
AFTER TIME CORDS MAY STRETCH CAUSING THE BLIND NOT TO OPERATE CORRECTLY. THIS CAN BE CORRECTED BY WINDING THE CORD AROUND EACH SPOOL. IMPORTANT! BOTH SIDES OF THE BLIND SHOULD BE ADJUSTED IN EQUAL AMOUNTS SO YOUR BLIND WILL HANG EVENLY. CORDS SHOULD BE FAIRLY TIGHT WHEN COMPLETED.
